CAREER SERVICE COMMITTEE  
Working Group on EMPLOYEE RATINGFACTORS USED IN EVALUATING PERSONNEL

1. Listed below are the factors that have been used or proposed by certain government agencies and industries for the purpose of evaluating personnel. They have been grouped in arbitrary categories solely for easy reference. For practical purposes, liberties have been taken in synonymizing certain factors used by two or more sources. Thus, "cooperation" and "cooperativeness" have been synonymized whereas "sagacity (non gullibility)" and "non gullibility (evasion and deceit)" have been kept separate in order that attention may be focused on possibly significant nuances of meanings.

2. The sources and their abbreviations, as used in the attached lists are as follows:

A. CIA sources:

OSO	-	Office of Special Operations, "Status and Efficiency Report" - CIA form 51-53 (1947)
Lib	-	Office of Collection and Dissemination, CIA Library, Experimental Evaluation Program (1951)
